File No: SEAC-1/2025/CR.16/ SEAC-1

Date: 04/09/2025

MEETING NOTICE

To,
All Project Proponents & All
Consultants,

Subject: 311th SEAC-1 Meeting held on 10th September, 2025.

Dear All,

The 311th Meeting of the State Level Expert Appraisal Committee-1, scheduled as below through video conferencing. You are requested to attend. The meeting agenda is attached herewith.

Please carefully go through the project information sheets Annexures attached herewith and complete all the required details in the prescribed format only. Kindly share copies of the presentation other documents mentioned in the instructions page attached along with relevant Annexures with the Office bearer. PP and Consultant ensure that documents should reach before **06/09/2025**.

The video conferencing link shall be shared shortly.

Date: 10th September, 2025

Time: 09.45 AM onwards

Venue: Through Video Conferencing

Your's Faithfully,

Sd/-

(Shri. Abhay Pimparkar)

Director Environment & Member Secretary

INSTRUCTIONS TO PROJECT PROPONENT & CONSULTANT

- All Project Proponent's and Consultants are requested to send Mobile Number, Name and email id's of two representatives of PP and two representatives of consultants to book for Video Conferencing and sending required information.
- The above information shall be sent on the above information shall be sent on mhseac.1@gmail.com by **06/09/2025**.
- PP to ensure deposit scrutiny fees as per important notice published on 10th November, 2020 by SEIAA on ec.ecmpcb.in website & includes details in the presentation of the project.
- Sector wise prescribed formats were shared with various meeting agendas.
- Separate formats are created for **the Stone Quarry, Stone Quarry Reappraisal (DEIAA) proposals, Industrial Sector proposals**
- Consultant must carefully scrutinize the documents, certificates, NOCs, Government's reports, proponent's project plans, EMP, CER, KML files and other information to prepare presentations.
- Use only the prescribed formats for each sector and strictly follow the sequence mentioned therein for preparation of presentation.
- The presentation, certificates & reports must be precise with accurate technical details.
- Kindly share the soft copies of the **presentation & EIA report** by email to all Committee members before the scheduled meeting.
- Kindly share Soft of presentation to Hon. Chairman, Member Secretary & Supporting Staff.
- Maintain the time limit allocated for presentation to avoid inconvenience of other presentations.
- Certificate of authenticity stating that the project information submitted/uploaded is true & factual and no false information or false data is produced or concealed.
- For Stone Quarry proposals, a detailed technical report and latest site visit report of the District Mining Officer (DMO) in the prescribed format attached herewith is compulsory.

CER - Activities Instructions

Subject: Implementation and Post monitoring of CER activities

Reference: MoEF & CC OM /F.No.22-65 /2017-IA.III dated 01/05/20218

The activities under CER must align with the issues raised during the Public Hearing (PH) or focus on the social needs of the affected communities.

These proposed activities should primarily benefit the areas around the project site, and the proponents must ensure that they address the most pressing local concerns.

List of CER Activities:

Sr. No.	CER Activities
1	Infrastructure creation for drinking water supply
2	Sanitation
3	Health
4	Education
5	Skill development
6	Roads
7	Cross drains
8	Electrification (Including Solar power)
9	Solid waste management facilities
10	Scientific Support and awareness to local farmers to increase yield of crop and fodder
11	Rain water harvesting
12	Soil moisture conservation works
13	Avenue plantation
14	Plantation in community areas

1. The proponents and consultants must present the CER activity list to local institutions such as schools, health centers, and Gram Panchayats (GP). Written consent must be obtained to confirm the community's agreement with the proposed activities.
2. The CER activities should follow the priority order outlined above. If a particular need (e.g., drinking water or sanitation) has already been

addressed, the next item on the list should be selected.

3. All CER activities must be treated as individual projects, with clear timelines and objectives.
4. Proponents are required to submit half-yearly compliance reports on the progress of CER projects to the Regional Office (RO) and the District Collector's office for monitoring.

Subject: Consultant's Report on Geological and Hydrological Investigations for Stone Quarry Projects

Geological and hydrological investigations are mandatory for obtaining Environmental Clearance (EC) for proposed stone quarry lands. However, it has been observed that many proposals are reaching the State Expert Appraisal Committee (SEAC) for appraisal without these critical investigations.

Accredited consultants, who typically have sectoral Functional Area Experts (FAEs) on their teams for project-specific studies. It is expected to ensure that the following parameters/aspects are thoroughly investigated and included in the report:

1. Geological structures
2. Land slope and elevation.
3. Slope information, especially in hilly terrains (e.g., <1:5 or >1:5).
4. Slope stability assessment for hilly area.
5. Monsoon groundwater level data.
6. Feasibility assessment of the stone quarry.

Above investigations are crucial for a comprehensive appraisal of stone quarry proposals and all Consultants must submit a study report with their recommendations.

Industrial Sector Presentation

For Industrial Projects Applied for EC, Expansion of EC, & Modifications etc.

*(Please mention, Not Applicable where the parameters are not applicable for your project)

Part I Slide No & Parameters- - -
1.Project introduction & Salient features: (Basic statistical information only):
2.Details of Existing EC, Products list, Certified Compliance Report (CCR) etc.:
3.Details of Consent to Establish (CTE) and Consent to Operate (CTO) if any: (chronology chart from first year order to current year order with brief Information), information about any Closure/Show Cause received earlier to the existing project, Compliance Report of Consent conditions
4.Comparative statement on existing CTO / EC products along with Proposed Expansion Products with quantities and total production quantities after expansion etc.:
5.Existing approved project layout plan with complete area statement and other details:
6. Proposed Conceptual Project layout plan with area statement including internal roads of 6 Mtr. width & 9 Mtr. turning radius, parking area, 33% green belt, machinery/production area, storage area, waste water treatment facility area, entry & exit etc. with latest google image of the project site.
7.Structural Stability certificate of existing building with respect to the additional load of proposed expansion units & raw materials storage etc. from Licensed Structural Engineer / Consultant:

Part II Presentation of Standard Terms of Reference (ToR) with the specific points for EIA project with including following points:
Presentation slides and Parameters:
1. Project Name / Industry Type:
2. Details of Baseline studies carried out (air, water, soil, noise, ecology) with conclusions:
3. Raw Material & final products details with process, reactions & mass Balance:
4.Details of Storage & handling of Raw Material & final products with chemical compatibility chart, PESO license requirement, if any.
5. Details of Boilers, DG sets & Fuel and Electricity requirement with source:

6. List & Nos. of equipment's used in Industry (existing & proposed)
7. Details of Air Pollution Control equipment's:
8. Details of water requirement with source of water supply:
9. Water balance chart (process, domestic, etc.) Recycle/reuse strategy and loss accountability:
10. Details of Water Pollution Control: a) Type and volume of effluents generation, b) Treatment system (ETP/STP/ZLD), c) Waste disposal and reuse plan: d) Treated water Parameter comparison with NGT/CBPCB Norms
11. Details of Solid, hazardous, and other waste streams generation with Storage, handling, and disposal methods:
12. Contour layout Plan, Storm Water drain design with calculation, Rain Water Harvesting details:
13. Green Belt Development Plan: a) Existing Green Belt (as mentioned in existing EC / CTO order) : b) Total Area (Sq. Mtrs.) and percentage%, total number of plants to be planted and actual number of plants at existing on the site and its percentage. c) Proposed Green Belt (all along the project periphery): Proposed area (Sq.Mtrs.), percentage %, number of native trees to be planted with yearly Replantation and Maintenance amount: d) List of Proposed Plant species of green canopy native trees with numbers and year wise plantation plan (Ornamental species, garden shrubs & small fruit species etc. shall not be included in the list):
14. Renewable Energy usage existing & proposed in the project:
15. Details of Heat Recovery study & usage of modern technology to minimize heat losses specifically for Metallurgical Industry:
16. Details of Life Cycle Analysis carried out for the project (Cradle to grave/Gate to gate) with recommendations:
17. Hazop & Risk Assessment Study report with recommendations:
18. Details of Occupational Safety & Health:
19. Details of Disaster Management Plan, On site & Off -site emergency preparedness plan:
20. Standard Operating Procedures (SOPs) for various aspects like chemical handling, storage & waste management:
21. Details of Environmental Cell:
22. Identification of key impacts of projects on air, water, land, socio-economic environment & Proposed mitigation measures:

23. Detail Environment Management Plan (with Capital & Recurring Monetary provisions) :

24. Socio-Economic Benefits of the project:

Part III

1. Public Hearing MoM and Compliance with financial provisions:

2. Implementation and Post Monitoring of CER Activities Plan: (As per guidelines of MoEF & CC OM: 01/05/2018)
--

3. Submission of All necessary Reports, NoC's and Letters whatever applicable for the Project with Index.:
